

# EXPERIENCE excellence A GUIDING LIGHT TO quality CARE

ALPHA FUND PARTICIPANTS' MEETING  
FEBRUARY 18 – 19, 2010  
WESTIN MISSION HILLS  
RANCHO MIRAGE, CA

## Safety for Effective Leaders

As people and organizations get better at working safely there is always the danger of complacency destroying performance. Key to John Drebing's insightful approach is the premise that safety must be a personal value, and that values don't change when conditions change, even in

tough times. John will show you how to share the importance of this value with others and how to do it in the most effective and fun way. He will help your team rekindle their vision, passion, and energy for helping others work safely along with acknowledging their own accountability for achieving results. The skills John teaches can be used immediately to help people take action now and build a more productive workplace with zero injuries to report. [www.drebing.com](http://www.drebing.com)

*All Participant senior executives and management are encouraged to attend.*

## What's on the horizon?

The healthcare world is forever revolving, but at an incredibly rapid pace. In a matter of essentially six years, we have seen Workers' Compensation rates drop by over sixty percent. With the expectation that after the 2010 elections—and a new governor is elected—WC will revert to pre-reform status, what is the likelihood that rates will jump back up by that much? What factors must not be ignored in order to avoid such significant impact?

ALPHA Fund's Chief Operating Officer, David McGhee, will address these issues and more, and provide a strategy aimed to keeping rates at their lowest possible.

**Don't miss this opportunity** to learn what's expected and ALPHA Fund's resolve to the many challenges ahead in the Workers' Compensation industry.

**Register now!** Complete and return the form on the reverse side no later than Monday, February 8, 2010.

ALPHA Fund Annual Participants' Meeting
