

SENIOR LOSS PREVENTION SPECIALIST

ALPHA Fund is a growing healthcare-focused insurance pool with an immediate opening for an experienced Loss Prevention Specialist based in the Sacramento metropolitan area.

We are seeking a creative and dedicated professional who can represent our organization through personalized contact with our group participants. This person must be people-oriented and have the ability to improve loss trends through existing and self-developed loss prevention programs.

This high caliber individual must possess the background, creativity, and expertise to demonstrate state-of-the-art loss prevention methods to our existing participant base. The ideal candidate should have a minimum of:

- 7 Years Experience
- Undergraduate degree in a related field
- Board Certification as a CSP, ARM, or CPHRM

An emphasis will be placed on the improvement of employee safety through the reduction of injury frequency and severity. The primary functions of this position include:

- Assist participants in the development of customized loss prevention programs
- Develop and present supervisory-level training programs
- Meet with senior management to present ideas and encourage support and participation
- Analyze and present statistical data to develop loss prevention strategies

35 to 55% in-state travel required, half of which may require overnight stays. Previous experience in insurance, consulting, or healthcare industries is a plus.

If this professional-level position fits into your progressive career goals, please submit a resume with salary history & requirements to:
